How Dog Gone t-shirts started

My custom-tshirt business started in 1994. I was a single-mom who started a part-time business in order for me to stay home with my three kids. In 2,000 I moved back to my hometown Sudbury, to be closer to my family. Using my last \$500, I set up a temporary custom t-shirt kiosk in the New Sdbury Centre. My three kids would come to work with me or join me after school while I worked at the t-shirt kiosk. The custom-t-shirt business was a success and I set up a permanent kiosk at mall and now I have 5 employees working with me. It all started with pressing pre-printed transfers on t-shirts, but now we offer full-colour vinyl prints that are guaranteed for 10 years. My adult daughter works with me in the business while raising 3 children of her own. I love my job and my incredible customers. It is exciting creating custom t-shirts that bring huge smiles to people who often tell me they keep their t-shirts for decades because they love the experience for you and your friends, family
